#### LET'S GIVE THIS GIRL A GREAT BIG HAND

The present editor of The Elba Clipper, though a former resident of Alabama, has stayed clear of contests in the BEAT 1-MEN present political campaign because he returned to this Crabtree, E. C. state a year ago and believes that a year is not sufficient time to become well acquainted with issues and conditions BEAT 2-LADIES to comment beyond giving the news. (After all, news is the primary ingredient of a newspaper—not editorials). But with regard to Mrs. Ruby Folsom Ellis, an excention is believed justified because she is a candidate for state BEAT 3-MEN office who is a native of Coffee County and calls Elba her home. It could not be anything but particularly gratifying Lee, E. B. o one in a high state administrative post to know that her home county gave her a landslide vote, particularly in view of the fact that Mrs. Ellis is certainly well qualified for the Lee, Patsy G. office of Secretary of State.

Because she is a native of Coffee County, and because Bradley, Willard Ralph Bowers, Travis she is well qualified, a landslide vote for her would be a mark of loyalty. Let's make it so near unanimous that no Cox, H. B. other county in Alabama can top the majority given her Crawford, W. L.

SUPPLEMENTAL LIST Of Qualified Voters Of COFFEE COUNTY ALABAMA

COUNTY OF COFFEE I, J. O. English, Judge of Probate for said county, here by certify that the following is a list of qualified voters of said county who have registered since the last list of qualified voters was published on April 1, 1958, or whose names were either through error or omission left off of said list. It is possible that this list does not constitute all who are qualified to vote in said county, however, upon notice BEAT 10-LADIES duly given within the time provided by law, this is submitted and published as a supplemental list of qualified voters who are entitled to vote in said county. Given under my hand this the 12th day of April, 1958.

J. O. ENGLISH, Judge of Probate

## STRENGTHEN AMERICA'S PEACE POWER

#### What is Peace Power?

Peace Power is the strength to keep the peace, of course. But that's not all.

Peace Power is also the scientist, patiently probing in the laboratory . . . and the kid starting his first awkward experiment at high school. 4 It's the lean young man in uniform . . . the men in

coveralls at the factory . . . and the lone farmer, carving a furrow under open sky. It's the professor, away "out in space" on the blackboard . . . and his students, following him carefully as acrobats, from one mathematic symbol to another.

It's the diplomats at a conference table. listening hopefully for a key to lasting peace in the translated tongues of many nations . . . men who must be able to talk strong and back it up . . . but whose real job is peace. And it's you.

You, too, are Peace Power. Because you want peace the way you do. And because you're backing your wanting with money. Peace costs money. Money for many different things: To help us keep the peace, through industrial and military strength. To help make it lasting for the future, through science and education. And, most important, it takes money saved by individuals. Your Savings Bonds, as a direct investment in your country, make you a Partner in the job of strengthening America's Peace Power.

The chart below shows how your Bonds will earn money for you. But the most important thing they earn is Peace. Think it over. Are you buying as many as you might?

WHITMAN DRUG CO.

Drive Slow and Live Longer 4-H To Launch Own Special Satellite:

hat's what the eight national winners of \$400 General Motors Scholarships for outstanding 4-H safety activities told newsmen Scholarships for outstanding 4-H safety activities told newsmen recently in Chicago.

"Just because we are entering the space age, we can't take our eyes off the tremendous losses from highway and farm accidents suffered each year right here on earth," they declared.

The national winners and 34 other state winners received all expense trips to the 4-H Club Congress in Chicago from General Motors.

Plan Special Safety "Moon" They pledged to lead the nation's 4-H members in an all-out drive against accidents. "Young people have the greatest stake in promoting safety because our futures are so deeply affected," they said.

"We'll create our own special 'safety satellite' by stimulating nationwide attention in the needless deaths and injuries which carelessness is causing on highways and farms. Teenagers everywhere can make safety as important as satellites by inspiring everyone to eliminate accidents." Nears Million Member Mark

Nears Million Member Mark

Typical of the group was Leonard Wertz of McClave, Colo., who began a local Teenage Safety Council. "If you get teenagers thinking and acting safety it will rub off on parents," he said.

Participation in safety activities by 4-H members has skyrocketed from 72,000 to 825,000 in the 13 years since General Motors became awards donor for the program. This participation is expected to reach the million member mark in 1958.

Other national winners were: Marilyn Ellison, El Reno, Okla.; Sylvia McCarty, Myers, Ky.; Sharon Mitchell, Dixmont, Me.; Carodyn Kay Moore, Fairview, Kans.; Christine Pasley, Hillsboro, Ore.; Ronald Powell, Class., Mo.; and Don Willis, Mendenhall, Miss. Their tip to everyone: SAFETY KNOWS NO QUITTING TIME!

UPTURN SEEN IN BUSINESS TREND BY THIS SUMMER Boca Rotan, Fla. -- An up-

turn in industrial activity during the summer was predicted here today by Marcus J. Aurelius, administrative vice president of United States Steel Corporation. Speaking before the 42nd annual meeting of the American Home Launary Manufacturer's Association, Mr. Aurelius said U. S. Steel studies indicate the present business decline has reached its low point, and that moderate summer gains will be followed by a further rise during the last three months of the year. Positive factors cited by Mr. Aurelius were the high levels of personal income and savings, reduced business invenfories, government efforts to stimulate the economy, and steady gains in consumer

ervices. These signs, he said, mobile manufacturers will pro- old Muscle Shoals below Wilson plant near Gantt.

et December 18, 1953. We share the same general interests. Our backgrounds Work Stopped are much the same. That makes it more satisfying to An act of Congress passed in July, 1954, then stopped all work of this type in the United States. After two years work was allowed to begin on the 34 units which are expected to be

ready for occupancy June 1. this year. The units are constructed of brick veneer with concrete block interior and cement

floors covered with asphalt tile which will stand up under wear for many years. Here are some of the major provisions of the Acts of Congress and the legislature affecting public housing:

The projects are available to families of low income. A family must pay at least 50 per cent of its income for rent (which includes some utlities.) Rental charges are based on the family income and not upon the size of the apartment. An apartment with three bedrooms, therefore, may be rented for less than a onebedroom apartment if the family in the one-bedroom 3partment has a higher income. Income limits for admission been established. In other words, a family whose income
